Your next lesson starts here

ASTAR / OFFLINE READER

01 Open your course

Open the offline HTML course on your computer. Keep a copy of the course file somewhere safe.

02 Choose a lesson

Choose a chapter, then a numbered lesson. Read the text and diagrams. Adjust text size if needed.

03 Try a question

Use interactive options where provided. For notebook questions, write or draw your answer on paper. Feedback depends on the question type.

04 Save your progress

Mark a lesson complete and resume in the same browser profile. Use Export progress for a backup. Browser data can be cleared, so keep that backup.

For teachers and facilitators

Review course accuracy before use. Original textbook prompts may require teacher feedback. Support students with unfamiliar language, navigation or concepts.
